

Pro Tools Mbox

High-Performance Personal Studio

A complete computer-based music production system featuring Mbox hardware and Pro Tools LE® software

Professionals around the world have long been using Pro Tools® systems to create award-winning music and sound for film and TV. Now you can get the same world-class results in your personal studio with Pro Tools Mbox®—a complete, integrated, computer-based music creation and production system. Designed by the same engineering team responsible for our high-end Pro Tools|HD systems, the Mbox hardware interface features a premium analog signal path and high-performance converters for exceptional sound. The included Pro Tools LE® software is the same platform used in commercial facilities around the world—ensuring pro studio compatibility and delivering everything you need to compose, record, edit, and mix music. Mbox also provides third-party drivers for rock-solid integration with nearly every popular audio recording application.

Premium quality

Designed by the same engineering team behind our top-of-the-line Pro Tools|HD systems, the Mbox interface features advanced recording technology for exceptional quality. A premium analog signal path and high-performance converters deliver pristine 24-bit, 96kHz sound. Stringent testing standards ensure rock-solid performance in the most demanding environments. And of course, Mbox is designed for ultra-tight integration with the included Pro Tools LE® software, which is based on the same platform trusted by professional musicians, engineers, and producers around the world.

Unsurpassed flexibility

The Mbox interface is also compatible with other major recording applications, so you can make music any way you want. All-new drivers provide superior performance with Logic, Live, Record, Reason, Fruity Loops, Cubase, Nuendo, Sonar, and more. So go ahead, use your favorite third-party DAW from start to finish—or record with the included Pro Tools LE software to ensure your sessions are compatible with pro studios around the world. No matter how you work, you'll sound great with Mbox.

Advanced functionality

The Mbox interface is packed with tons of advanced features that make it easy to get great results. Mbox boasts the same professional-grade soft-clip limiter circuit found in our high-end Pro Tools|HD 192 I/O audio interface, so you can track much hotter signals without overloading the inputs and clipping. Built-in reverb helps you deliver more inspiring vocal and instrumental

performances—without taxing your computer processor. The integrated guitar tuner enables you to tune your guitar, bass, and other instruments directly from the interface. And a Pro Tools multi-function button makes it easy to access common software parameters—like tap session tempo, start/stop record, and create a new track—right from the front of the interface. With Mbox, your sessions will move at the speed of your creativity.

50-Word Description

Make world-class music with Pro Tools® Mbox®—a complete, computer-based music production system. The 4 x 4 interface features a premium analog signal path and high-performance converters for exceptional sound. Included Pro Tools LE® software delivers everything needed to compose, record, edit, and mix music. Rock-solid drivers ensure compatibility with popular recording applications.

25-Word Description

Make world-class music with Pro Tools® Mbox®—a complete computer-based music production system featuring Mbox hardware and Pro Tools LE® software. Also compatible with other music software.

Pro Tools Mbox—High-Performance Pro Tools Personal Studio

Full Features

- Includes Pro Tools LE software
- Compatible with most major audio software (Pro Tools LE®, Logic, Live, Cubase, and more)
- Bus-powered USB 2.0 connection for maximum mobility
- Professional-grade circuitry and converters deliver exceptional audio performance
- Up to 24-bit, 96 kHz sample rates
- Soft-clip limiter lets you track hot signals without clipping—providing a classic overdriven tape saturation sound
- Built-in guitar tuner
- Onboard DSP offers flexible cue mixing and reverb effects
- Assignable Pro Tools multi-function button on interface gives you fast access to software functions
- Hardware configuration:
 - 4 x 4 simultaneous channels of I/O
 - 2 XLR mic/line combo inputs with 48 V phantom power
 - 2 1/4" DI inputs on front panel for easy access
 - 2 balanced 1/4" monitor outputs
 - 1 1/4" stereo headphone output with volume control
 - Stereo S/PDIF digital I/O
 - 1 MIDI input, 1 MIDI output
 - Monitor control section with Mono and Dim controls
 - Dedicated monitor volume knob

Minimum System Requirements

Mac

- OS X Leopard 10.5.8 or Snow Leopard 10.6.3
- 1 GB RAM (2 GB recommended)
- 6 GB free disk space
- Intel® processor (no PowerPC® support)
- One native USB port

PC

- Windows® XP 32-bit SP3, Windows Vista® 32-bit SP2, Windows 7 32-bit Native, or Windows 7 64-bit Native
- 1 GB RAM (2 GB recommended)
- 5 GB free disk space
- One native USB port

Compatibility

- ASIO, Core Audio, WDM, MME, and multi-client drivers

Specifications

Total simultaneous channels of I/O:	4/4
Simultaneous analog inputs/outputs:	2/2
Mic preamps:	2
Instrument DIs:	2
Onboard DSP effects:	Yes
Built-in guitar tuner:	Yes
48V phantom power:	Yes
Soft-clip limiter:	2 (on mic preamps)
Maximum resolution:	24-bit/96 kHz
Assignable software control button:	Yes
Built-in Mono, Dim, Mute controls:	Mono, Dim
Digital I/O:	S/PDIF (2 channels)
MIDI I/O ports:	1/1
Stereo headphone outputs:	1 (1/4")
Connection:	USB 2.0
Power source:	USB
Software included:	Pro Tools LE® 8 software & over 70 effects & virtual instruments

Weights and Measurements

SKU:	9900-53110-12
Price:	\$679.00 USD, MSRP
UPC:	612391830120
Unit Dimensions, unboxed:	8.87 x 7.56 x 2.32 in (22.3 x 19.2 x 5.9 cm)
Unit Dimensions, boxed:	12.40 x 10.83 x 3.62 in (31.5 x 27.5 x 9.2 cm)
Unit Weight, unboxed:	3.31 lbs (1.5 kg)
Unit Weight, boxed:	5.07 lbs (2.3 kg)
Units per Case:	5
Case Weight:	29.76 lbs (13.5 kg)
Case Dimensions:	19.17 x 11.73 x 13.78 in (48.7 x 29.8 x 35.0 cm)
Cases per Pallet:	48
Pallet Weight:	1494.73 lbs (678.0 kg)
Pallet Dimensions:	47.25 x 39.37 x 87.40 in (120.0 x 100.0 x 222.0 cm)
Units per Container:	1920 (20') / 4800 (40')
