Sonnox Oxford Plugin Bundles			
SONNOX	Elite Collection TDM HD (incl. Native)	The Ultimate Oxford Plugins Collection. Seven world renowned Oxford Plug-ins in a single bundle. Contains: Oxford EQ, Oxford Dynamics, Oxford Inflater, Oxford Transient Modulator, Oxford Reverb, Oxford Limiter and Oxford SuprEsser (native only plug-in RTAS, AU, VST).	2'770.--
SONNOX	Elite Collection Native RTAS, AU, VST	The Ultimate Oxford Plugins Collection. Seven world renowned Oxford Plug-ins in a single bundle. Contains: Oxford EQ, Oxford Dynamics, Oxford Inflater, Oxford Transient Modulator, Oxford Reverb, Oxford Limiter and Oxford SuprEsser (native only plug-in RTAS, AU, VST).	1'340.--
SONNOX	Elite Collection Powercore (incl. Native)	The Ultimate Oxford Plugins Collection. Seven world renowned Oxford Plug-ins in a single bundle. Contains: Oxford EQ, Oxford Dynamics, Oxford Inflater, Oxford Transient Modulator, Oxford Reverb, Oxford Limiter and Oxford SuprEsser (native only plug-in RTAS, AU, VST). Elite Collection for PowerCore contains the native version of the Oxford Reverb.	1'940.--
SONNOX	Essential Collection TDM HD (incl. Native)	Essential Mix Tools. If you want to mix with the same high-end plug-ins used on countless hit records all over the world - the Sonnox Essential Collection has all the essential ingredients to polish your mix. Contains: Oxford EQ, Oxford Dynamics, Oxford Reverb†, and Oxford SuprEsser (native only plug-in RTAS, AU, VST).	2'180.--
SONNOX	Essential Collection Native RTAS, AU, VST	Essential Mix Tools. If you want to mix with the same high-end plug-ins used on countless hit records all over the world - the Sonnox Essential Collection has all the essential ingredients to polish your mix. Contains: Oxford EQ, Oxford Dynamics, Oxford Reverb†, and Oxford SuprEsser	1'030.--
SONNOX	Essential Collection Powercore (incl. Native)	Essential Mix Tools. If you want to mix with the same high-end plug-ins used on countless hit records all over the world - the Sonnox Essential Collection has all the essential ingredients to polish your mix. Contains: Oxford EQ, Oxford Dynamics, Oxford Reverb†, and Oxford SuprEsser. Sonnox Essential Collection for PowerCore, contains the native version of the Oxford Reverb.	1'400.--
SONNOX	Enhance Collection TDM HD (incl. Native)	Extra loudness, presence, punch. The Sonnox Enhance Collection contains three simple-to-use, but incredibly powerful plug-ins, to enhance your mix and give it the energy it deserves to be heard above the rest. Contains: Oxford Inflater, Oxford Transient Modulator and Oxford Limiter	1'140.--
SONNOX	Enhance Collection Native RTAS, AU, VST	Extra loudness, presence, punch. The Sonnox Enhance Collection contains three simple-to-use, but incredibly powerful plug-ins, to enhance your mix and give it the energy it deserves to be heard above the rest. Contains: Oxford Inflater, Oxford Transient Modulator and Oxford Limiter	580.--
SONNOX	Enhance Collection Powercore (incl. Native)	Extra loudness, presence, punch. The Sonnox Enhance Collection contains three simple-to-use, but incredibly powerful plug-ins, to enhance your mix and give it the energy it deserves to be heard above the rest. Contains: Oxford Inflater, Oxford Transient Modulator and Oxford Limiter	930.--

Company	Product Name	Description & Configuration	Price in CHF
SONNOX	Oxford Restore Bundle Native only RTAS, AU, VST	A suite of three plug-ins. Restore represents a quantum leap beyond previous restoration plug-in technology with its advanced algorithms and novel features that allow fast and extremely effective removal of pops, clicks, crackles, scratches, hum, buzzes and extraneous background noise from virtually any recording. Key Features: Oxford DeClicker, Oxford DeBuzzer and Oxford DeNoiser	2'130.--
SONNOX	Broadcast Collection TDM HD(incl. Native)	Broadcast Production Collection. A collection of plug-ins which provide high-quality processing and precision control for broadcast production. It includes the renowned Oxford EQ and Dynamics plug-ins, the popular Inflator for maximizing loudness, the preset-packed Oxford Limiter and the SuprEsser for fixing problematic frequencies.	2'020.--
		NEW ! Special introduction price till 31.10.10	1410.--
SONNOX	Broadcast Collection Native	Broadcast Production Collection. A collection of plug-ins which provide high-quality processing and precision control for broadcast production. It includes the renowned Oxford EQ and Dynamics plug-ins, the popular Inflator for maximizing loudness, the preset-packed Oxford Limiter and the SuprEsser for fixing problematic frequencies.	1'040.--
		NEW ! Special introduction price till 31.10.10	720.--
SONNOX	Post Collection TDM HD(incl. Native)	Post Production Collection. An uncompromising plug-in solution for audio post-production. It includes the award-winning Sonnox Restore suite which features the DeClicker, DeBuzzer and DeNoiser audio restoration plug-ins, along with Oxford EQ, Dynamics, Limiter, Reverb and the versatile SuprEsser dynamic EQ.	3'890.--
		NEW ! Special introduction price till 31.10.10	2720.--
SONNOX	Post Collection Native	Post Production Collection. An uncompromising plug-in solution for audio post-production. It includes the award-winning Sonnox Restore suite which features the DeClicker, DeBuzzer and DeNoiser audio restoration plug-ins, along with Oxford EQ, Dynamics, Limiter, Reverb and the versatile SuprEsser dynamic EQ.	2'790.--
		NEW ! Special introduction price till 31.10.10	1950.--
SONNOX	Custom Bundle Options - TDM, Native or Powercore	CREATE YOUR CUSTOM BUNDLE... MORE PLUG-INS = MORE DISCOUNT ! Just pick and mix the plug-ins you want. <i>Note: All licences must be deposited into the same iLok account. GML option for Oxford EQ (TDM) does not qualify as a plug-in for multi plug-in discount.</i> 2 Plug-Ins 20% / 3 Plug-Ins 25% / 4 Plug-Ins 30% / 5 Plug-Ins 35% / 6+ Plug-Ins 40%	

Sonnox Oxford Single Plugins			
SONNOX	Oxford EQ TDM HD (incl. Native)	Features: 5 band fully parametric EQ / Variable HF & LF filters up to 36dB/Octave / Algorithm taken directly from the Sony OXF-R3 / Four different EQ types in one plug-in / Fully de-cramped HF response / A / B switches (automatable) / Ultra low noise and distortion.	890.--
SONNOX	Oxford EQ with GML TDM HD (incl. Native)	The Sonnox Oxford / GML 8200 Option adds the GML 8200 EQ emulation to the Sonnox Oxford EQ plug-in. Features: Enhances the Sonnox Oxford EQ plug-in by adding a GML-8200 emulation as an additional EQ type / Common control interface features with the built-in Sonnox Oxford EQ types / Extremely accurate GML 8200 emulation with centre frequencies up to 26KHz / Highly accurate control range and law matching with GML 8200 to retain the operational character of the analogue unit. / Extremely low noise and distortion.	1'210.--

Company	Product Name	Description & Configuration	Price in CHF
SONNOX	Oxford EQ Native RTAS, AU, VST	Features: 5 band fully parametric EQ / Variable HF & LF filters up to 36dB/Octave / Algorithm taken directly from the Sony OXF-R3 / Four different EQ types in one plug-in / Fully de-cramped HF response / A / B switches (automatable) / Ultra low noise and distortion.	360.--
SONNOX	Oxford EQ Powercore (incl. Native)	Features: 5 band fully parametric EQ / Variable HF & LF filters up to 36dB/Octave / Algorithm taken directly from the Sony OXF-R3 / Four different EQ types in one plug-in / Fully de-cramped HF response / A / B switches (automatable) / Ultra low noise and distortion.	630.--
SONNOX	Oxford Dynamics TDM HD (incl. Native)	Features: The dynamics section from Sony OXF-R3 console / Separate sections for Compressor, Gate, Expander, Limiter / 2-Band side chain EQ (with audition function)/ Warmth control for extra presence and tube-like warmth /Three different compressor types (linear and exponential curves) / Variable soft knee compressor / Separate 5.1 bus compressor (where supported) / Ultra low noise and distortion	890.--
SONNOX	Oxford Dynamics Native RTAS, AU, VST	Features: The dynamics section from Sony OXF-R3 console / Separate sections for Compressor, Gate, Expander, Limiter / 2-Band side chain EQ (with audition function)/ Warmth control for extra presence and tube-like warmth /Three different compressor types (linear and exponential curves) / Variable soft knee compressor / Separate 5.1 bus compressor (where supported) / Ultra low noise and distortion	360.--
SONNOX	Oxford Dynamics Powercore (incl. Native)	Features: The dynamics section from Sony OXF-R3 console / Separate sections for Compressor, Gate, Expander, Limiter / 2-Band side chain EQ (with audition function)/ Warmth control for extra presence and tube-like warmth /Three different compressor types (linear and exponential curves) / Variable soft knee compressor / Separate 5.1 bus compressor (where supported) / Ultra low noise and distortion	630.--
SONNOX	Oxford Inflater TDM HD (incl. Native)	Features: Adds presence and tube-like warmth / Increases perceived loudness of any material / Provides virtual headroom above digital maximum / Direct and band-split modes	500.--
SONNOX	Oxford Inflater Native RTAS, AU, VST	Features: Adds presence and tube-like warmth / Increases perceived loudness of any material / Provides virtual headroom above digital maximum / Direct and band-split modes	210.--
SONNOX	Oxford Inflater Powercore (incl. Native)	Features: Adds presence and tube-like warmth / Increases perceived loudness of any material / Provides virtual headroom above digital maximum / Direct and band-split modes	400.--
SONNOX	Oxford Transient Modulator TDM HD (incl. Native)	Features: Accentuates or softens attacks and transients / Brings instruments forwards or pushes them back in the mix / Radically changes the dynamics of instruments / Variable harmonic enhancement for extra punch / Can have the effect of increasing or decreasing room ambience / Gives life to dull sounding recordings without the artifacts of compression	500.--

Company	Product Name	Description & Configuration	Price in CHF
SONNOX	Oxford Transient Modulator Native RTAS, AU, VST	Features: Accentuates or softens attacks and transients / Brings instruments forwards or pushes them back in the mix / Radically changes the dynamics of instruments / Variable harmonic enhancement for extra punch / Can have the effect of increasing or decreasing room ambience / Gives life to dull sounding recordings without the artifacts of compression	210.--
SONNOX	Oxford Transient Modulator Powercore (incl. Native)	Features: Accentuates or softens attacks and transients / Brings instruments forwards or pushes them back in the mix / Radically changes the dynamics of instruments / Variable harmonic enhancement for extra punch / Can have the effect of increasing or decreasing room ambience / Gives life to dull sounding recordings without the artifacts of compression	400.--
SONNOX	Oxford Reverb TDM HD (incl. Native)	Features: Extremely flexible stereo modelling reverb / Full control over all of its many parameters / Independent control of early reflections and reverb tail / Integrated 5-band EQ / Over 100 invaluable presets for music and post-production	1'030.--
SONNOX	Oxford Reverb Native RTAS, AU, VST	Features: Extremely flexible stereo modelling reverb / Full control over all of its many parameters / Independent control of early reflections and reverb tail / Integrated 5-band EQ / Over 100 invaluable presets for music and post-production	430.--
SONNOX	Oxford Limiter TDM HD (incl. Native)	Features: Enhance section to increase perceived loudness / Reconstruction meter shows 'actual' signal rather than sampled signal / Auto compensate feature corrects recon errors without losing overall programme loudness / Attack, release and variable soft knee controls / Comprehensive dither and noise shaping / Complete with many factory presets	530.--
SONNOX	Oxford Limiter Native RTAS, AU, VST	Features: Enhance section to increase perceived loudness / Reconstruction meter shows 'actual' signal rather than sampled signal / Auto compensate feature corrects recon errors without losing overall programme loudness / Attack, release and variable soft knee controls / Comprehensive dither and noise shaping / Complete with many factory presets	360.--
SONNOX	Oxford Limiter Powercore (incl. Native)	Features: Enhance section to increase perceived loudness / Reconstruction meter shows 'actual' signal rather than sampled signal / Auto compensate feature corrects recon errors without losing overall programme loudness / Attack, release and variable soft knee controls / Comprehensive dither and noise shaping / Complete with many factory presets	450.--
SONNOX	Oxford SuprEsser Native only RTAS, AU, VST	A suite of three plug-ins. Key Features: Oxford DeClicker, Oxford DeBuzzer and Oxford DeNoiser -	330.--
SONNOX	Oxford DeClicker Native only	Features: Three sections with individual thresholds and controls: DePop, DeClick and DeCrackle / Event display gives intuitive visual feedback of energy and duration of detected events / Exclude Box' to select events that should not be repaired / Dialogue Mode that allows two separate sets of control settings distinguished by input level / Excitation displays to aid accurate setting of threshold controls / Three audition modes, including option to listen to only removed events / Advanced algorithms for accurate detection and high quality repair	950.--

To be continued

Company	Product Name	Description & Configuration	Price in CHF
SONNOX	Oxford DeBuzzer Native only	Features: High performance hum and buzz removal using advanced algorithms / Separate Detect and Remove Sections for intuitive workflow / Scalable high resolution FFT of input signal shows strongest harmonics and removal filter / Very accurate setting of fundamental over 3 frequency ranges / Integrating frequency display shows strength of fundamental / Tracking mode can be set to Automatic or Fast to follow fundamentals that wander in frequency, or to Freeze for fundamentals that vary in amplitude / Choice of removal filters: Comb for general purpose narrow removal over many harmonics, or Parametric EQ for a more musical removal over a small set of harmonics / Two audition modes, including option to listen to the removed buzz	950.--
SONNOX	Oxford DeNoiser Native only	Features: High performance noise removal using advanced algorithms / Separate DeHisser, Detect and Remove Sections for intuitive workflow / High resolution FFT of input signal showing noise profile / Efficient DeHisser for preparation before wide-band noise reduction / Detector noise profile can be set to automatic, freeze or manual / Noise threshold and reduction are controllable in frequency bands using adjustable bias curve / Two audition modes, including the option to listen to the removed noise / Warmth control for sweetening after noise removal / Make-up gain for true A/B comparisons	950.--
